Step 1:

Download JDK-8u111 on your laptop:

for MAC:
https://pennstateoffice365-my.sharepoint.com/:u:/g/personal/oza5_psu_edu/EbJoztJHGjZNiMBEvYkFS8cBUVdd3Yv2tpdPq_-EtajGhA?e=yYfFYc

for PC:
https://pennstateoffice365-my.sharepoint.com/:u:/g/personal/oza5_psu_edu/ETm2lxXp1sFEvCz6KQc8GG8BsnLdEmmQp4uq6n8aywnWoQ?e=wEqz5O

Step 2:

Once downloaded note the installation directory:

A) default for windows- **C:\Program Files\Java\jdk1.6.0_02**

B) default for mac- **/usr/jdk/jdk1.6.0_02.**

Step 3:

Go on your desktop and create a new folder with any name of your choice

Now open net-beans → services
right-click on java-db
go to properties and set paths as shown below:

Java DB installation: **C:\Program Files\Java\jdk1.8.111\db**
Database location: **C:\Desktop\newfolder**
